

## RE-U-ZIP™ Magnetic Entry Strip

(SKU: MSCBE)

- ✓ **Reusable**
- ✓ **Designed for Critical Barriers**
- ✓ **Reliably Holds Over 5 Pa of Air Pressure!**
- ✓ **Customize Door Size and Barrier Material**
- ✓ **No Poles or Special Tools Required**
- ✓ **Low Cost vs. Pre-Fab Magnetic Doors**
- ✓ **Easily Handles High Traffic**
- ✓ **Compact Design For Easy Storage**
- ✓ **Interchanges with RE-U-ZIP™ Dust Barrier Zippers**

**SAVE TIME AND MONEY** In addition to increased job site efficiency, the RE-U-ZIP™ Magnetic Entry Strip's upfront cost, as well as setup time, is significantly lower than that of traditional pre-fabricated door kits. Utilizing RE-U-ZIP's low-cost Mounting Strips™, the Magnetic Dust Barrier Entry Strip™ continues to increase project efficiency from one job site to the next.

**QUICK AND EASY** Setup only takes minutes. Peel and stick one of the included Mounting Strips™ to your plastic barrier, cut down its center to create your opening, affix the Magnetic Dust Barrier Entry Strip™ to the Mounting Strip™, and you are ready to go! It's that simple. *(see installation video below)*

**NO MORE CONSTRAINTS** Unlike other self-closing dust barrier products that have a fixed barrier size and material, the Magnetic Dust Barrier Entry Strip™ lets you **create a hands-free, self-closing opening in the plastic barrier of your choice!** You can now create a fully customized, self-closing magnetic door that **fits the unique needs of your project.**

**NEGATIVE-AIR PRESSURE** With the RE-U-ZIP™ Magnetic Entry Strip's ability to **maintain a reliable seal over 5 Pa of air pressure**, it is the more desirable new standard for contractors desiring a **self-closing entry option for critical dust barriers.**

Start enjoying **increased project efficiency** with the **convenience** of hands-free job site access today!

### Contains:

**1 x Magnetic Entry Strip** (Dimensions: 80" x 2.25")

**4 x Mounting Strips**  
**1 x Magnetic Entry Strip Carry Bag**

\*PLASTIC SHEETING NOT INCLUDED

### **100% Satisfaction Guaranteed**

We are so confident that you will never return to your old dust barrier zipper that we offer a **90-day money-back guarantee**.

#### **PRO TIP:**

#### **Create a Magnetic Flap Door**

Using two RE-U-ZIP™ Magnetic Entry Strips side-by-side allows for the execution of **a custom-sized magnetic flap door!** Enjoy the benefits of self-closing dust barrier entry with the ability to customize passageways for ease of **large equipment access** in and out of your job site.

Cut-To-Size, **RE-U-ZIP™ Magnetic Flap Door Kits** are also available for purchase.

## Self-Closing Entry Strip Installation Guide

### DIRECTIONS:

1 Remove release paper and place mounting strip on barrier so the bottom ends just above the floor.

2 Cut the mounting strip down the center from top to bottom. **\*For long-term use leave the top 1 inch of mounting strip uncut to prevent barrier from tearing.**

3 Fold the Re-U-Zip +Magnetic in half over itself, and then apply one side at a time to mounting strip.

4 Pinch and pull down each side to ensure proper adhesion.

### JOB COMPLETE

Remove Reuzip +Magnetic from mounting strip for continued use on future projects.

### STORAGE

Fold in a zig-zag pattern for easy storage.
